Art: Hello! Happy Memorial Day! This is a special holiday when we celebrate our loved ones who have passed away. I found a fun craft for you to make. It does not require many materials: sticks and yarn! Visit www.fantasticfunandlearning.com. Search for “yarn wrapped stars”. They used popsicle sticks, but I think natural sticks from your yard would work very well, too. Make some of these stars and hang them up for your Memorial Day celebration. I think you may find some other fun stuff on this website. Take a look.

Art: Hi, guys! Happy Memorial Day! Did you know the original name of this holiday was Decoration Day? The name changed in 1971. This holiday was created to celebrate fallen soldiers after the Civil War. Today, many people visit the graves of their loved ones and decorate them with flowers and flags. If you pass a cemetery around Memorial Day, you will see plenty of red, white and blue decorations! I have a fun paper activity this week. You will learn to make a pinwheel! Perhaps you could make a few and place them in your front yard to greet and cheer walkers this holiday weekend! Visit www.auntannie.com and search for "Easy Pinwheel". There are patterns and instructions included! Happy Pinwheeling!!

Specials: Art: Hi! This is the last time I will talk to you! Graduation is always rather bittersweet. Moving on and up is a good thing, but leaving the familiar behind can be a little painful. This is the time when you will experience many new things. Your world will get a little larger and you will realize everything is not just about you. There will be many choices make good ones. Life is really all about the choices we make. This Memorial Day weekend, choose to do something special with someone you love. Visit www.steamsational.com and search for "21 Creative Flag Crafts". Maybe spend some time with someone younger (or older) and create something special to decorate their world. People value you and enjoy spending time with you. I know I have.
